INDEPENDENT AUDITORS' REPORT

To the Village Board
Village of Trempealeau
Trempealeau, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Trempealeau, Wisconsin, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Village of Trempealeau's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village of Trempealeau's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Village of Trempealeau's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Village Board
Village of Trempealeau

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Trempealeau, Wisconsin, as of December 31, 2015 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note I, the Village of Trempealeau adopted the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*, effective January 1, 2015. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule and schedules of net pension asset and contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

To the Village Board
Village of Trempealeau

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Trempealeau's basic financial statements. The combining and individual fund financial statements, utility operating revenue and expense schedules, and required bond disclosures as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, utility operating revenue and expense schedules, and required bond disclosures are fairly stated in all material respects, in relation to the basic financial statements as a whole.

Baker Tilly Vichow Krause, LLP

VILLAGE OF TREMPEALEAU

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION As of December 31, 2015

Total Fund Balances - Governmental Funds	\$ 997,316
--	------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental funds are not financial resources and therefore are not reported in the funds.

Land	334,426
Other capital assets	6,111,102
Less: Accumulated depreciation	(1,682,114)

Some receivables that are not currently available are reported as unavailable revenues in the fund financial statements but are recognized as revenue when earned in the government-wide statements.

Interest on TIF advance	60,000
Loans receivable	96,887
Special assessments	7,585
Other receivables	37,533

The net pension asset does not relate to current financial resources and is not reported in the governmental funds.

46,314

Deferred outflows of resources related to pensions do not relate to current financial resources and are not reported in the governmental funds.

49,322

Deferred inflows of resources related to pensions do not relate to current financial resources and are not reported in the governmental funds.

(1,113)

Some liabilities, including long-term debt, are not due and payable in the current period and, therefore, are not reported in the funds.

Bonds and notes payable	(1,572,500)
Compensated absences	(39,749)
Accrued interest	(26,707)
Landfill liability	<u>(49,535)</u>

See accompanying notes to financial statements.

VILLAGE OF TREMPEALEAU

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2015

Net change in fund balances - total governmental funds	\$	(7,350)
--	----	---------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives and reported as depreciation expense in the statement of activities.

Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements		785,268
Some items reported as capital outlay were not capitalized		(64,493)
Some items reported as operating expenditures in the fund financial statements but are capitalized in the government-wide statements		355
Depreciation is reported in the government-wide financial statements		(209,329)

Receivables not currently available are reported as revenue when collected or currently available in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.

Revenue from receivables on the fund statements are deferred until payment is received		84
Special assessments are deferred on the fund statements		5,143
Interest income on TIF advance is deferred on fund statements and recognized in the government-wide statements		(10,000)

Debt issued provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Debt issued		(500,000)
Principal repaid		110,000

Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Compensated absences		1,519
Accrued interest on debt		(15,949)
Landfill liability		7,327
Net pension asset/liability		(26,122)
Deferred outflows of resources related to pensions		30,365
Deferred inflows of resources related to pensions		(1,113)

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of Trempealeau, Wisconsin conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the village. The reporting entity for the village consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The village has not identified any organizations that meet this criteria.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In June 2012, the GASB issued statement No. 68 - *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*. This statement establishes standards for measuring and recognizing assets, liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures related to pensions. In November 2013, the GASB issued statement No. 71 - *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*. This statement addresses an issue regarding application of the transition provisions of Statement No. 68. These standards were implemented January 1, 2015.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The village does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements

Financial statements of the village are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues, and expenditures/expenses.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the village or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the village believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The village reports the following major governmental funds:

- General Fund - accounts for the village's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.
- Capital Improvements Capital Projects Fund - accounts for financial resources restricted, committed or assigned for the acquisition or construction of equipment and/or major capital facilities.

The village reports the following major enterprise funds:

- Electric Utility - accounts for operations of the electric system
- Water Utility - accounts for operations of the water system
- Sewer Utility - accounts for operations of the sewer system

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The village reports the following nonmajor governmental funds:

Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

- Library
- Block Grant
- Trempealeau Trust Fund

Debt Service Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs.

- Debt Service

Capital Projects Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

- TIF

In addition, the village reports the following fund type:

Agency Fund - used to account for and report assets held by the village in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.

- Tax Agency Fund

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the village's electric, water, and sewer utilities and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the village is entitled the resources and the amounts are available. Amounts owed to the village which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Special assessments are recorded as revenues when they become measurable and available as current assets. Annual installments due in future years are reflected as receivables and unavailable revenues.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

VILLAGE OF TREMPÉALEAU

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements (cont.)

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting, and do not have a measurement focus.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the electric, water and sewer utilities are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the village considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of village funds is restricted by Wisconsin state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- b. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority, or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

The village has adopted an investment policy. That policy follows the state statute for allowable investments. The policy addresses custodial credit risk, interest rate risk, credit risk and concentration of credit risk as follows:

Custodial credit risk will be minimized by: 1) maintaining a list of financial institutions authorized to provide deposit and investment services and 2) all financial institutions must supply audited financial statements demonstrating compliance with federal and state capital adequacy guidelines.

Interest rate risk will be minimized by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to maturity.

Credit risk will be minimized by: 1) limiting investments to types of securities allowed by state statute and 2) the village board shall by resolution approve public depositories deemed appropriate for use.

Concentration of credit risk will be minimized by diversifying the investment portfolio so that the impact of potential losses from any one type of security or any one individual issuer will be minimized.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

See Note III. A. for further information.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

2. Receivables

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the village, taxes are collected for and remitted to the state and county governments as well as the local school district and technical college district. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying statement of assets and liabilities - agency fund.

Property tax calendar - 2015 tax roll:

Lien date and levy date	December 2015
Tax bills mailed	December 2015
Payment in full, or	January 31, 2016
First installment due	January 31, 2016
Second installment due	July 31, 2016
Personal property taxes in full	January 31, 2016
Tax sale - 2015 delinquent real estate taxes	October 2018

Delinquent real estate taxes as of July 31 are paid in full by the county, which assumes the collection thereof. No provision for uncollectible accounts receivable has been made for the electric, water and sewer utilities because they have the right by law to place substantially all delinquent bills on the tax roll.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

In the governmental fund financial statements, advances to other funds are offset equally by a nonspendable fund balance account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation or by a restricted fund balance account, if the funds will ultimately be restricted when the advance is repaid.

It is the village's policy to record unavailable revenue for the net amount of the receivable balance. As loans are repaid, revenue is recognized. When new loans are made from the repayments, expenditures are recorded. Interest received from loan repayments is recognized as revenue when received in cash. Any unspent loan repayments at year end are presented as restricted fund balance in the fund financial statements.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

3. Inventories

Governmental fund inventory items are charged to expenditure accounts when purchased. Year-end inventory was not significant. Proprietary fund inventories are generally used for construction and/or for operation and maintenance work. They are not for resale. They are valued at cost based on weighted average, and charged to construction and/or operation and maintenance expense when used.

4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

5. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets and \$15,000 for infrastructure assets, and an estimated useful life in excess of one year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

5. Capital Assets (cont.)

Government-Wide Statements (cont.)

Depreciation and amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation and amortization reflected in the statement of net position. Depreciation and amortization is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings	15-75 Years
Land Improvements	15-30 Years
Vehicles and Equipment	3-15 Years
Utility System	5-100 Years
Infrastructure	20-60 Years
Intangibles	3-15 Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

6. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred charge on refunding arises from the advance refunding of debt. The difference between the cost of the securities placed in trust for future payments of the refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund financial statements.

7. Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, and are payable with expendable resources.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

7. *Compensated Absences* (cont.)

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at December 31, 2015, are determined on the basis of current salary rates and include salary related payments.

8. *Long-Term Obligations*

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable, accrued compensated absences and landfill liability.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the straight-line method. The balance at year end is shown as an increase or decrease in the liability section of the statement of net position.

9. *Deferred Inflows of Resources*

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

10. *Equity Classifications*

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

10. Equity Classifications (cont.)

Government-Wide Statements (cont.)

- b. Restricted net position - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund balances are displayed as follows:

- a. Nonspendable - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the Village Board. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Village Board that originally created the commitment.
- d. Assigned - Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. The Board may take official action to assign amounts. Assignments may take place after the end of the reporting period.
- e. Unassigned - Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

10. Equity Classifications (cont.)

Fund Statements (cont.)

Proprietary fund equity is classified the same as in the government-wide statements.

The village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

See Note III. H. for further information.

11. Basis for Existing Rates

Electric Utility

Electric utility rates were authorized by order 5940-ER-106, which is effective for services rendered on or after July 15, 2013.

Water Utility

Water rates were authorized by order 5940-WR-102, which is effective for services rendered on or after June 1, 2010.

Sewer Utility

Sewer rates effective for services rendered on or after January 1, 2014 were approved by village ordinance dated February 3, 2014.

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

A budget has been adopted for the general fund, certain special revenue funds, the debt service fund and capital projects funds. A budget has not been formally adopted for the block grant fund or the Trempealeau trust fund. Wisconsin Statute 65.90 requires that an annual budget be adopted for all funds.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2015

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

B. EXCESS EXPENDITURES OVER APPROPRIATIONS

Budgeted expenditures in the library fund (including amendments) were \$106,718. Total expenditures were \$118,697. This results in excess expenditures of \$11,979.

The village controls expenditures at the function level. Some individual functions experienced expenditures which exceeded appropriations. The detail of those items can be found in the village's year-end budget to actual report.

C. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of December 31, 2015, the following individual fund held a deficit balance:

<u>Fund</u>	<u>Amount</u>	<u>Reason</u>
TIF	\$ 237,694	Expenditures in excess of revenues

TIF district deficits are anticipated to be funded with future incremental taxes levied over the life of the districts, which is 27 years for the districts created before October 1, 1995, and 23 years for districts created thereafter through September 30, 2004. Beginning October 1, 2004, the life of new districts varies by type of district (20-27 years) and may be extended in some cases.

D. LIMITATIONS ON THE VILLAGE'S TAX LEVY

Wisconsin law limits the village's future tax levies. Generally the village is limited to its prior tax levy dollar amount (excluding TIF Districts), increased by the greater of the percentage change in the village's equalized value due to new construction or zero percent. Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The village is required to reduce its allowable levy by the estimated amount of fee revenue it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE III - DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The village maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position and balance sheet as cash and investments.

The village's deposits and investments at year end were comprised of the following:

	Carrying Value	Bank and Investment Balances	Associated Risks
Deposits	\$ 2,152,041	\$ 2,324,881	Custodial credit risk
US agencies - explicitly guaranteed	360,000	358,198	Custodial credit and interest rate risk
US agencies - implicitly guaranteed	283,847	283,847	Custodial credit, credit, interest rate and concentration of credit risks
Negotiable certificates of deposits	238,000	237,291	Custodial credit, credit, interest rate and concentration of credit risks
Petty cash	200	-	N/A
Total Deposits and Investments	\$ 3,034,088	\$ 3,204,217	
Reconciliation to financial statements			
Per statement of net position			
Unrestricted cash and investments	\$ 1,278,619		
Restricted cash and investments	1,054,461		
Per statement of assets and liabilities - agency fund			
Agency Fund	701,008		
Total Deposits and Investments	\$ 3,034,088		

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts. Deposits in the credit union are insured by the National Credit Union Administration in the amount of \$250,000 for all share draft accounts and \$250,000 for all share certificate and regular share accounts.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Bank accounts and credit unions are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual municipalities. This coverage has been considered in computing custodial credit risk.

The village maintains collateral agreements with its banks. At December 31, 2015, the banks had pledged various government securities in the amount of \$1,150,259 to secure the village's deposits.

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the village's deposits may not be returned to the village.

As of December 31, 2015, \$17,080 of the village's total bank balances were exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ <u>17,080</u>
--------------------------------	------------------

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The village does not have any investments exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The village had investments in implicitly guaranteed agencies of the United States government and negotiable certificates of deposit which were rated AAA and AA+ by Standard & Poors.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

VILLAGE OF TREMPÉALEAU

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2015

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Concentration of Credit Risk (cont.)

At December 31, 2015, the investment portfolio was concentrated as follows:

<u>Issuer</u>	<u>Investment Type</u>	<u>Percentage of Portfolio</u>
Comenity Cap Bank Utah	Negotiable certificates of deposit	10.01%
American Express	Negotiable certificates of deposit	16.98%
Federal Farm Credit Banks	US agencies - implicitly guaranteed	32.28%

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment.

As of December 31, 2015, the village's investments were as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Years)</u>
US agencies - explicitly guaranteed	\$ 360,000	3
US agencies - implicitly guaranteed	283,847	4
Negotiable certificates of deposit	238,000	2

See Note I.D.1. for further information on deposit and investment policies.

B. RECEIVABLES

All receivables are expected to be collected within one year except \$96,887 in the Block Grant Fund.

VILLAGE OF TREMPÉALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

B. RECEIVABLES (cont.)

Governmental funds report *unavailable or unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unavailable revenue* and *unearned revenue* reported in the governmental funds were as follows:

	Unearned	Unavailable
Property taxes receivable for subsequent year	\$ 689,802	\$ -
Special assessments not yet due	-	7,585
Housing loans	-	96,887
Interest receivable on advance to TIF	-	60,000
Other receivables	43,466	37,533
 Total Unearned/Unavailable Revenue for Governmental Funds	 \$ 733,268	 \$ 202,005

C. RESTRICTED ASSETS

The following represent the balances of the restricted assets:

Long-Term Debt Accounts

- Redemption - Used to segregate resources accumulated for debt service payments over the next twelve months.
- Reserve - Used to report resources set aside to make up potential future deficiencies in the redemption account.
- Construction - Used to report proceeds of revenue bond issuances that are restricted for use in construction.

Impact Fee Account

The village has received impact fees which must be spent in accordance with the local ordinance and state statutes. Any unspent funds must be refunded to the current property owner.

Net Pension Asset

Restricted assets have been reported in connection with the net pension asset balance since this balance must be used to fund employee benefits.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

C. RESTRICTED ASSETS (cont.)

Following is a list of restricted assets at December 31, 2015:

	Restricted Assets	Liabilities Payable from Restricted Assets	Restricted Net Position
Bond redemption account	\$ 84,175	\$ 15,280	\$ 68,895
Construction account	669,623	-	n/a
Bond reserve account	286,525	-	n/a

Electric	\$ 220,338
Water	116,919
Sewer	138,086
Total Business-type Activities Depreciation Expense	\$ 475,343

Depreciation expense may be different from business-type activity capital asset additions because of joint metering, salvage, cost of removal, internal allocations, or costs associated with the disposal of assets.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

E. INTERFUND ADVANCES AND TRANSFERS

Advances

The general fund is advancing funds to TIF. The amount advanced is determined by the deficiency of revenues over expenditures and other financing sources since the district's inception. No repayment schedule has been established, however interest is being accrued at 8% annually.

The following is a schedule of interfund advances:

Receivable Fund	Payable Fund	Amount	Amount Not Due Within One Year
General Fund	TIF	\$ 237,694	\$ 237,694
General Fund	Sewer Utility	<u>397,329</u>	397,329
Total - Fund Financial Statements		635,023	
Less: Fund eliminations		<u>(237,694)</u>	
Total - Interfund Advances - Government-Wide Statement of Net Position		<u><u>\$ 397,329</u></u>	

The principal purpose of the advance from the general fund to the sewer utility is to cover a deficit in unrestricted cash balances.

Transfers

The following is a schedule of interfund transfers:

Fund Transferred To	Fund Transferred From	Amount	Principal Purpose
General Fund	Electric Utility	\$ 92,477	Property tax equivalent
General Fund	Water Utility	66,595	Property tax equivalent
Capital Improvements	General Fund	<u>144,218</u>	Operating subsidy
Total - Fund Financial Statements		303,290	
Less: Fund eliminations		<u>(144,218)</u>	
Total Transfers - Government-Wide Statement of Activities		<u><u>\$ 159,072</u></u>	

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

F. LONG-TERM OBLIGATIONS

Long-term obligations activity for the year ended December 31, 2015, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental Activities					
Bonds and Notes Payable					
General obligation debt	\$ 1,182,500	\$ 500,000	\$ 110,000	\$ 1,572,500	\$ 177,366
Other Liabilities					
Vested compensated absences	41,268	25,441	26,960	39,749	10,694
Landfill liability	56,862	-	7,327	49,535	7,700
Total Other Liabilities	98,130	25,441	34,287	89,284	18,394
Total Governmental Activities Long-Term Liabilities	\$ 1,280,630	\$ 525,441	\$ 144,287	\$ 1,661,784	\$ 195,760
Business-type Activities					
Bonds and Notes Payable					
General obligation debt	\$ 174,000	\$ -	\$ 86,981	\$ 87,019	\$ 87,019
Revenue bonds	5,200,373	-	209,198	4,991,175	230,911
(Discounts)/Premiums	(33,405)	-	(1,667)	(31,738)	-
Sub-totals	5,340,968	-	294,512	5,046,456	317,930
Other Liabilities					
Vested compensated absences	57,077	43,265	37,734	62,608	20,879
Total Business-type Activities Long-Term Liabilities	\$ 5,398,045	\$ 43,265	\$ 332,246	\$ 5,109,064	\$ 338,809

In accordance with Wisconsin Statutes, total general obligation indebtedness of the village may not exceed 5% of the equalized value of taxable property within the village's jurisdiction. The debt limit as of December 31, 2015, was \$5,454,805. Total general obligation debt outstanding at year end was \$1,659,519.

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the village. Notes and bonds in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

F. LONG-TERM OBLIGATIONS (cont.)

Revenue Debt (cont.)

The electric utility has pledged future electric revenues, net of specified operating expenses, to repay revenue bonds issued in 2014. Proceeds from the bonds provided financing for the utility system improvements. The bonds are payable solely from electric revenues and are payable through 2034. Annual principal and interest payments on the bonds are expected to require 63% of net revenues. The total principal and interest remaining to be paid on the bonds is \$5,310,071. Principal and interest paid for the current year and total customer net revenues were \$282,853 and \$445,301, respectively.

The water utility has pledged future water revenues, net of specified operating expenses, to repay revenue bonds issued in 2009. Proceeds from the bonds provided financing for the utility system improvements. The bonds are payable solely from water revenues and are payable through 2029. Annual principal and interest payments on the bonds are expected to require 63% of net revenues. The total principal and interest remaining to be paid on the bonds is \$1,319,373. Principal and interest paid for the current year and total customer net revenues were \$94,434 and \$149,247, respectively.

Revenue debt payable at December 31, 2015, consists of the following:

Business-type Activities Revenue Debt

	Date of Issue	Final Maturity	Interest Rates	Original Indebtedness	Balance December 31, 2015
<u>Water Utility</u>					
Safe drinking water loan	11/12/2009	5/1/2029	2.668%	\$ 1,417,481	\$ 1,101,175

Totals	<u>\$ 4,991,175</u>	<u>\$ 1,638,269</u>

Other Debt Information

Estimated payments of compensated absences and liability are not included in the debt service requirement schedules. The vested compensated absences and landfill liabilities attributable to governmental activities will be liquidated primarily by the general fund.

There are a number of limitations and restrictions contained in the various bond indentures and loan agreements. The village believes it is in compliance with all significant limitations and restrictions, including federal arbitrage regulations.

G. CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the village to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. The village completed final closure of the landfill in 1988. The \$49,535 reported as landfill postclosure care liability at December 31, 2015, represents the total amount needed by the village for post closure care costs according to state and federal regulations. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

The village is required by state and federal laws and regulations to provide proof of financial assurance for the postclosure care costs. The village is in compliance with these requirements, and, at December 31, 2015, the village had landfill maintenance and monitoring costs in the amount of \$7,327. The maintenance and monitoring expenses for long-term care will be budgeted for each year by the village and the amount averages \$7,700 annually.

NOTE IV - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

Summary of Significant Accounting Policies

Pension. For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information About the Pension Plan

Plan description. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided. Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

VILLAGE OF TREMPÉALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Post-retirement adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2005	2.6%	7%
2006	0.8	3
2007	3.0	10
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$41,212 in contributions from the village.

Contribution rates as of December 31, 2015 are:

<u>Employee Category</u>	<u>Employee</u>	<u>Employer</u>
General	6.8%	6.8%
Executives & Elected Officials	7.7%	7.7%
Protective with Social Security	6.8%	9.5%
Protective without Social Security	6.8%	13.1%

Pension Assets, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2015, the village reported an asset of \$100,685 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2013 rolled forward to December 31, 2014. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The village's proportion of the net pension asset was based on the village's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2014, the village's proportion was 0.00409911%, which was an increase of 0.00010481% from its proportion measured as of December 31, 2013.

For the year ended December 31, 2015, the village recognized pension expense of \$33,938.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

At December 31, 2015, the village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 14,596	\$ -
Net differences between projected and actual earnings on pension plan investments	48,757	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	2,420
Employer contributions subsequent to the measurement date	44,343	-
Totals	\$ 107,696	\$ 2,420

\$44,343 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended December 31:	Deferred Outflows of Resources	Deferred Inflows of Resources
2016	\$ 15,517	\$ 552
2017	15,517	552
2018	15,517	552
2019	15,517	552
2020	1,285	212

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Actuarial assumptions. The total pension liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2013
Measurement Date of Net Pension Liability (Asset)	December 31, 2014
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.8%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*:	2.1%

** No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2012 using experience from 2009 – 2011. The total pension liability for December 31, 2014 is based upon a roll-forward of the liability calculated from the December 31, 2013 actuarial valuation.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Long-term expected return on plan assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Real Rate of Return</u>	<u>Target Allocation</u>
US Equities	5.3%	21%
International Equities	5.7	23
Fixed Income	1.7	36
Inflation Sensitive Assets	2.3	20
Real Estate	4.2	7
Private Equity/Debt	6.9	7
Multi-Asset	3.9	6
Cash	0.9	-20

Single discount rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.56%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Sensitivity of the village's proportionate share of the net pension asset to changes in the discount rate. The following presents the village's proportionate share of the net pension asset calculated using the discount rate of 7.20 percent, as well as what the village's proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	1% Decrease to Discount Rate (6.20%)	Current Discount Rate (7.20%)	1% Increase to Discount Rate (8.20%)
Village's proportionate share of the net pension asset	\$284,051	\$(100,685)	\$(404,534)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <http://legis.wisconsin.gov/lab/> and reference report number 15-11.

At December 31, 2015, the village reported a payable to the pension plan which represents contractually required contributions outstanding as of the end of the year.

B. RISK MANAGEMENT

The village is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

C. COMMITMENTS AND CONTINGENCIES

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

VILLAGE OF TREMPEALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

C. COMMITMENTS AND CONTINGENCIES (cont.)

Purchased Power Contracts

On August 1, 2011 the village entered into a contract for the establishment and operation of Great Lakes Utilities (GLU), a municipal electric company formed pursuant to Section 66.0825 of the Wisconsin Statutes. GLU is a separate electric company of Wisconsin municipal electric utilities created to obtain low cost and reliable electric power for its members.

In 2011, the village entered into a contract with GLU to purchase capacity, energy, and renewable credits from Lakewind project for a 20 year term.

On November 1, 2014, the village entered into a long term full requirements power supply contract with GLU. The contract has an initial term of 25 years and thereafter until terminated with notice as specified in the agreement.

D. JOINT VENTURES

The Village of Trempealeau and the Townships of Trempealeau and Caledonia jointly operate the local fire department, which is called the Trempealeau-Caledonia Fire Board (district) and provides fire service.

The governing body is made up of citizens from each community. Local representatives are appointed by the boards. The governing body has authority to adopt its own budget and control the financial affairs of the district. The village is obligated by the joint venture agreement to remit an amount annually to the district. The village made a payment to the district of \$40,461 in 2015.

Financial information of the district as of December 31, 2015 is available directly from the district's office.

Debt is being repaid with resources of the district and is secured by the taxing power of the participants. The transactions of the district are not reflected in these financial statements.

The village does not have an equity interest in the district.

The Village of Trempealeau also participates in the Southern Trempealeau County Solid Waste Commission to jointly provide garbage and recycling service to residents of the Village of Trempealeau, City of Galesville, Village of Melrose, and Towns of Caledonia, Gale, Trempealeau and Dodge. The governing body is made up of one member from each community. The village made payments totaling \$13,770 to the Commission in 2015. During 2004, the Commission notified participants that part of the initial start-up assessment would be returned to the communities over the next five years. The final payment of the initial start-up assessment was received in 2008. Financial information can be obtained from the Village of Trempealeau or other participating communities.

VILLAGE OF TREMPÉALEAU

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015

NOTE IV - OTHER INFORMATION (cont.)

F. STATUS OF TAX INCREMENTAL FINANCING DISTRICT

Tax incremental financing, as authorized by Section 66.1105 of the Wisconsin Statutes, is a method by which the village can recover its development and public improvement costs in Tax Incremental Finance District (TIF) designated areas. These costs are recovered from the increased valuation in the designated area. The village has financed development and public improvement costs in its TIF district through general fund advances. Tax increments will be used to repay these general fund advances.

In 1997, the village created Tax Incremental Financing District No. 1. A summary of cumulative status is as follows:

	2015	From Date of Creation
Project Costs		
Capital expenditures	\$ 150	\$ 598,342
Interest and fiscal charges	9,530	291,309
Total Costs	9,680	889,651
 Project Revenues		
Tax increments	42,599	540,467
Special assessments	-	6,561
Miscellaneous	-	68,119
Sale of property	-	36,810
Total Revenues	42,599	651,957
 Net Costs Recoverable Through TIF Increments - December 31, 2015		
	\$ (32,919)	\$ 237,694
 Reconciliation of Recoverable Costs		
Fund balance deficit		\$ 237,694
 Net Costs Recoverable Through TIF Increments - December 31, 2015		
		\$ 237,694

The District is allowed to collect a tax increment until its termination date. Any over collections are returned to the various taxing entities of the District. The village becomes liable for any costs not recovered by the termination dates.

The District's last date to incur project costs is September 29, 2019. The last year the District may collect an increment is 2025. The tax increment to be collected in 2016 is \$43,702.

VILLAGE OF TREMPEALEAU

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended December 31, 2015

BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note I. C.

The budgeted amounts presented include any amendments made. The village may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two-thirds action.

Appropriations lapse at year end unless specifically carried over. There were no carryovers to the following year. Budgets are adopted at the department level of expenditure.

WISCONSIN RETIREMENT SYSTEM

The amounts determined for each fiscal year were determined as of the calendar year-end that occurred within the fiscal year.

The village is required to present the last ten fiscal years of data; however accounting standards allow the presentation of as many years as are available until ten fiscal years are presented.

Changes in benefit terms. There were no changes of benefit terms for any participating employer in the Wisconsin Retirement System.

Changes in Assumptions. There were no changes in assumptions.
